SCOUTING REPORT

"DJ Adams runs the show with a calm command that sets him apart. He processes defenses quickly, threading passes through tight windows and sparking movement that keeps opponents scrambling. When he senses a defense losing balance, he immediately turns that opening into an advantage. When it's time to put points on the board, he shifts gears smoothly, finding lanes, knocking down clean looks, and finishing with a confident touch. His blend of composure, awareness, and winning habits gives him the kind of control coaches trust late in games, making him the steady heartbeat of any offense he leads."
